Attached are specific comments on the FR notice. Please let me know if you have any questions or concerns. I agree the comment window should be 60 days.

Thanks.

Subject: FW: FRN for GenX chemicals and PFBS - Risk Communication

Nancy and David,

We're trying to move fast with making fixes to these FRNs and I apologize if there is any confusion. I am also concerned that there might be too many cooks in the kitchen when it comes to making edits.

That said, I wanted to share my suggestions (as delivered internally to ORD) on the risk communication aspects of the Gen-X/PFBS FRN. See below.

If we can resolve the OMB concerns I will be ready for this FRN to move forward.

Subject: RE: FRN - for GenX chemicals and PFBS: latest versions

Samantha,

This email is focused on risk communication, not the kidney/thyroid question at issue with OMB.

See attached FRN for my suggested edits.

David and Nancy had also discussed amending the Exec Summary of the PFBS and Gen-X Chemicals assessment. Based

Deliberative Process / Ex. 5

I look forward to your feedback. If comfortable please share with Peter and OW.

Thanks for all of your attention over the past few days.

Subject: FRN - for GenX chemicals and PFBS: latest versions

Hi David,

Here are the two versions of the FRN for public release of GenX chemicals and PFBS. There's one FRN for the release of both assessments. The attachment titled "GenX Chemicals and PFBS Toxicity Assessment 10.2.18" was the latest version that was developed jointly by OW/ORD and had been shared with Dave Ross.

The other attachment ending with "_ORD revisions" is the former version with edits reflected in track changes that I added based on the messaging from last week's PFAS discussion with you. I also updated the file name to clarify this was the FRN (not the assessments).

Let me know if you have any questions!

Thanks,
Samantha
